

## JGP TRADING COMPANY

An ISO 9001:2015 Certified Company

## INTRODUCTION

JGP TradingCo, KUWAIT was established in 2020 with the objective to provide complete Engineering Products Electro-Mechanical and Industrial Insulations for equipment and distribution of products for major projects. The company has the expertise and the ability to supply all electro-mechanical needs for projects to international contractors, consultants, OEM manufacturers and end-users. Recognizes the need of providing an organized, full range of support to clients, contractors and consultants, from job take-off, selections, technical submittal, and quotation proposals through financing, purchasing, delivery, and after-sale services.

We are looking forward as one among the main trading & contracting house to provide the most economical solution to customer energy needs.

# FIRE AND BLAST PROTECTION

## OUR PARTNERS

- BLAST DOOR

- BLAST WINDOWS

- BLAST MODULES

InterDam designs, manufacturers, and supplies and maintains fire and blast resistant architectural items for oil and gas and offshore wind projects. It is our aim to create the safest area possible for people working hazardous environments by providing safe and simple solutions that maximize security and protection of personnel and critical equipment. Our standard and customized range of high quality architectural products includes:

## **FIRE ALARM, FIRE SUPPRESSION**

Special Hazard Fire Protection. The world has changed dramatically since Fike entered the fireprotection industry more than 50 years ago. Fike's products have evolved alongside today's technologies to protect the world's data centers, telecommunications facilities, chemical processing factories, manufacturing facilities and power plants safe from fires. Disaster doesn't wait. Stay proactive, stay protected

**3M™ Novec™ 1230 Fire Protection Fluid**

**FM-200™ Clean Agent Fire Suppression System**

**ECARO-25® Clean Agent Fire Suppression**

**FIRE ALARM SYSTEM, AIR SAMPLING SYSTEM**

## COOPERS FIRE CURTAIN BARRIERS

If you are refurbishing an existing building or designing for new, ensuring that your building complies with stringent fire regulations can often compromise your designs for open plan environments. At Coopers, our commitment to advancing fire fabric technology has led our engineers to set the high standards that fire experts have come to expect and architects rely upon to help their designs meet fire regulations. Whether it is fire curtains that have been tested to UL or BS EN standards, we help designers to replace non-loadbearing fire walls and doors, fire doors, fire rated glazing, and sprinklers to achieve modern, open plan environments in line with stringent fire regulations.

## **FIRE RATED CURTAIN WALLS**

Intervine Fire Protect LLC supplies the architectural and commercial building industry with innovative solutions for specialized glazing needs. Intervine is the recognized leader in the fire-rated glass and framing field, working closely with design professionals, and manufacturers to identify glass and framing solutions for the wide-ranging requirements of today's commercial & residential buildings

## **Intervine represents Voestalpine steel profiles and Pyroguard glass**

Intervine Products

Our products have been delivered to numerous prestigious facilities across the country.

Fire resistance

Bullet resistant

Fire Resistant Glazed Roofs

Smoke Exhaust Windows and Flaps

Smoke Proof Doors

Automatic Fire Rated Sliding Doors

## FIRE PROTECTION BLANKET/JACKET

### PROFLEX

ProFlex protects the main devices that control a plant with a flexible jacket fully designed and manufactured in Italy. The goal is reducing drastically the risks arising from fire and blow-up.

### PROBRID

ProBrid is a hybrid solution combining a rigid and a jacket-type protection case. It is applied when both rounded and critical equipment occur, so a simple box or blanket would not provide the optimal fire protection.

### CABLE TRAY

Proflex products insulate cable trays carrying control cables to ensure that the cables can operate long enough to allow process shut down during fires.

# ELECTRICAL CABLES

POLYCAB

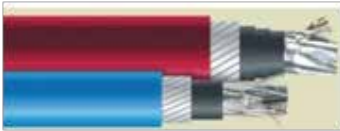

THERMOCABLE

RPG CABLES

(A Division of KEC International Limited)

**Instrumentation Cables**

**Power & Control Cables**

**Thermocouple Extension / Compensating Cables**

**Fire Resistant Cables**

**Foundation Fieldbus Cables**

**High Temperature Cables**

**Wind Power Cables**

**CRD and Trailing Cables**

**H07RN-F-Heavy Duty Rubber Cables**

**Solar Photovoltaic Cables**

**Cables for Railways**

**Marine / Shipboard Cables**

**EXPROOF JUNCTION BOX  
ELECTRICAL LIGHTING AND ACCESSORIES**

**Ex-proof Junction Box & Control Equipment for Hazardous Areas**

**Ex-proof Earthing Grounding Control System for Hazardous Areas**

**Ex-proof Lighting Fixtures for Hazardous Areas**

**Explosion-proof Cable Glands for Hazardous Areas**

## BATTERY CHARGERS/RECTIFIERS/UPS/FREQUENCY CONVERTERS

### Solar PCU

SunSine series of Solar Power Generating System (SPGS) to provide most efficient and economical electrical power for domestic applications with optimum use of solar power. SunSine SGPS provides pure sine wave output with built in automatic priority selector switch technology for the optimum use of solar power.

Sinega Series is a robust industrial-grade Uninterruptible Power Supply (UPS) system, which is a true online, double conversion UPS designed and built in accordance with IEC standards.

SINEGATE Series incorporates advanced system topology to optimize the system reliability, efficiency and the overall system performance. It features PWM inverter technology, fully rated static transfer switch and high overload and fault clearing capabilities. The UPS system is carefully engineered and built to last and operate flawlessly in the harshest operating conditions for more than 20 years with the minimum requirement of maintenance.

LINEGATE - Industrial Battery Chargers/Rectifiers Arabian Power Electronics Company (APEC) offers LINEGATE series of heavy-duty industrial battery chargers/rectifiers designed to provide secured DC power for critical loads. These chargers are designed to charge all types of batteries, such as Ni-Cd, Vented Lead Acid, Valve-Regulated Lead Acid types etc. LINEGATE chargers are constant voltage devices with builtin current limiting feature and accurate voltage regulation for optimized performance.

## SMOKING CABINS/KITCHEN AIR & INDUSTRIAL FILTRATION

### Smoking cabin Smoke 'n Go

The Smoke 'n Go smoking cabin is flexible in size and equipped to fit regular smoking intensities in any private or public building. It removes unpleasant odours and tobacco smoke as well as improves the general indoor air quality.

#### Features

Four models for up to 28 smokers

Electrostatic filter for high efficiencies and low operating costs

Tested and certified by BGIA, TUV, ECN

Smoke and odour free ashtray with valve

High quality materials (aluminium, safety glass, burn free table top) Attractive, transparent design

Low noise

ETO: Two unique solutions for removing EtO in logistics areas and containers/trailers

Two unique solutions for the effective and efficient removal of ethylene oxide. The ETO-Special is the first air cleaner that removes 100% of remaining gas particles. Through active degassing of the space the device contributes to a healthy and safe working environment. The ETO Degasser has been specially developed for containers and trailers. Thanks to its very fast, flexible, effective operation, waiting times for drivers are kept to a minimum.

### Kitchen Air Filtration

Grease, smoke and soot particles are released during every cooking process. These particles accumulate quickly in the extraction duct and the fans in professional kitchen. This creates serious hazards as many particles are flammable. With the Euromate Kitchen Air Filtration system you filter these particles before they enter the ventilation system. You deal with fire hazard effectively, save on maintenance costs and the surrounding area is free of cooking odours.

## HUMIDIFIERS

### XTR electrode humidifier

#### Features and Benefits

- Easy to operate
- Easy to maintain - just replace the cylinder
- Affordable to buy; economical to operate
- Disperse steam into ductwork or open spaces
- Automatic drain and fill events for optimized humidifier performance based on water type

### Vapormist® electric humidifier

#### Features and Benefits

- Compatible with all water types (tap, softened, deionized, reverse osmosis)
- Disperses steam through ductwork with dispersion tubes or panels, depending on the dispersion method chosen.
- Passed rigorous tests to meet IBC standard and OSHPD pre-approval for Seismic Certification option

### DriSteem's STS®

(steam-to-steam) humidifier creates chemical-free humidification steam using boiler steam as its energy source. Boiler steam in the heat exchanger vaporizes clean fill water into humidification steam. No boiler steam or chemicals ever enter the humidified space, instead they return to the boiler.

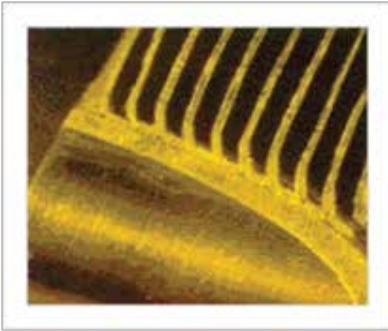

## FINNED FAN COOLERS/TUBE BUNDLES

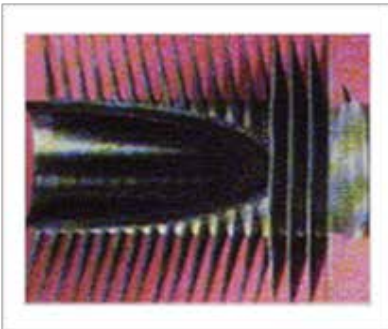

### "L" WRAP-ON FINS

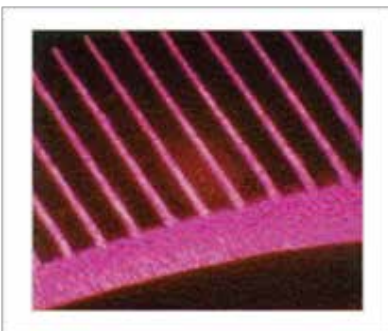

The aluminium strip foot section is first formed into an L shape and then tension wrapped on to the base tube. Wound fin base sections are close to each other so as ensure a continuous cover over the primary tube surface. Finally, the fin strip is fastened at ends to prevent loosening.

### KNURLED "L" FINs

An aluminum strip is folded to form an L shape and then wound around the base tube. The feet of the fins are joined together and covers the whole of the tube surface. The root of the fin is simultaneously knurled with the inner tube ensuring tight contact between fins and tube.

### "G" EMBEDDED FINs

Fin consists of an aluminium strip whose foot edge is tension wrapped and embedded into the primary tube wall.

## VALVES

- **Trunnion mounted ball valves**
- **Floating ball valves**
- **Low emission valves**
- **Cryogenic valves**
- **Metal seated valves**
- **Oxygen service valves**
- **Chlorine service valves**
- **Bellows seal valves**
- **Gate Globe and Check valves**
- **Chemical process pumps**
- **Actuators**
- **Automation**

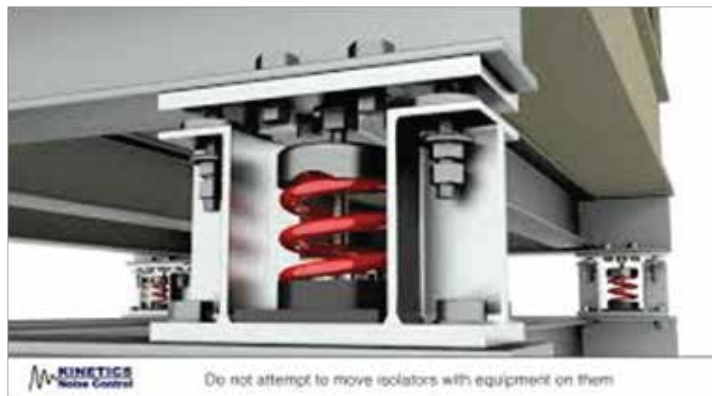

## VIBRATION AND NOISE CONTROL PRODUCTS

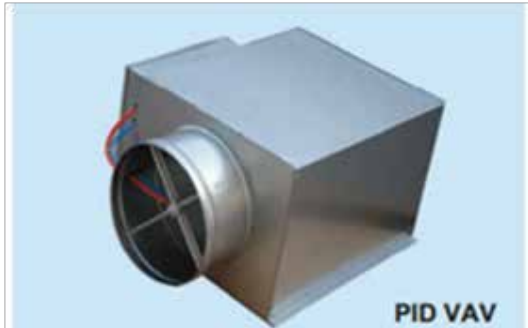

# VIMCO

- General
- Pads
- Piping Accessories
- Restrained Spring Mounts
- Expansion Joints
- Bases & Rails
- Housed Spring Mounts
- Elastomeric Isolators
- Ducting Accessories
- Spring Hangers
- Floating Floor Products
- Seismic Products
- Open Spring Mounts
- Neo-Spring Hangers
- Air Mounts
